

Meeting notes

Tuesday, 24 March 2009, 1200 - 115 pm Alaska time

In attendance: Rodger Harvey, Carin Ashjian, Phyllis Stabeno, Kerim Aydin, Mike Sigler, Bill Wiseman

Volcano eruption: May delay flights. Right now the shortest buffer between people arriving and ship departure for the second Healy cruise is 1-1/2 days. Carin plans to postpone sailing if people are delayed. Checked baggage is second priority for flights, so people should carry essential items with them.

PI meeting dates:

Choices

6-8 Oct in Anchorage

13-15 Oct in Girdwood

20-22 Oct in Anchorage

There was no clear choice of week. The choice was a compromise based on the following 3 considerations:

1. Greatest number of principal investigators can attend the second week.
2. Girdwood offers good venue with some isolation
3. All field work will be complete before the PI meeting.

Decision: Girdwood the week of October 13th.

SAB NOMINATIONS: Ray Sambrotto and Mike Lomas for BEST, Kerim Aydin, Phyllis Stabeno, and Jeff Napp for BSIERP. Voting will start immediately and remain open until 4/10. Carolyn Rosner will conduct the election.

Bering Sea for the Ocean Sciences Meeting in 2010

<http://www.agu.org/meetings/os10/>. One or more sessions. Integration themes, but also narrower themes. Compare and contrast marginal ice seas. The call for sessions is open now and due 29 May 2009. Rodger and Mike will draft a proposal for one or more sessions, then send to the SAB for review.

Next SAB meeting: Tuesday May 26, 1000 am - 1200 pm Alaska time. 2 items: sessions for AGU meeting; draft agenda for PI meeting
