

## **BSIERP Lead PI teleconference**

**4 March 2008**

### **Agenda**

1. Confirm retirement of BSIERP Executive Committee (Science Advisory Board of BEST and BSIEP now active)
2. Confirm BASIS scheduling and identify sampling gaps
3. Publicize new BEST summer cruise dates
4. Work schedules due to Mike

### **Notes**

*In attendance:* Franz Mueter, Henry Huntington, Kathy Kuletz, Mike Sigler, Nicola Hillgruber, Kerim Aydin, Ed Farley, Sandy Parker-Stetter, Mike Sigler, Nancy Friday, Ron Heintz

1. Confirmed retirement of BSIERP Executive Committee
3. New BEST summer cruise dates - July 3 - 31
4. Work schedules due to Mike - most have arrived
  
2. BASIS scheduling: Sampling reduced to "Area 2" (middle and outer domain), dates Sept 8 - 30 with load and offload at Dutch Harbor

How can we fill this gap (loss of areas 1 [Bristol Bay] and 3 [north of area 2])

Revelle cruise off the table because not calibrated (and may not have an echosounder)

Miller Freeman (9/9-20) cruise is possible to fill gap for Area 1

A few conditions need to be met:

- need a transect design to integrate with BASIS acoustic data
- need target identification with midwater trawling (currently beam trawling planned for this cruise)

Sandy will contact Janet to determine if these conditions can be met, and if feasible, will follow up with Anne Hollowed, John Horne, Chris Wilson, Kathy Kuletz and Mike Sigler

Next meetings (April 3, 100-230 pm, May 13, 9-1030 am [Alaska time])
